Bring the Girl the Moon on a String

Everyone knows that the way to please a girl is to bring her the moon on a string!

Catch the Animals

Girl quickly proves to be quite demanding.
So Boy sets out to convince her favourite animals to help him in his quest.

Animals Help Get the Girl

Armed with the best gifts the world has to offer,
Boy is destined to win the heart of Girl.

Avoid the Clouds

Swipe up and down to steer the moon.
Avoid the nasty clouds!

Sleepy Cloud: Tap to Wake

Sleepy is lazy, be careful of his Zs, they can zap the moon!
It's usually most safe to pass under Sleepy.
Tap him to wake him up and make passing a little easier.

Rainy Cloud: Tap to Stop Rain

Rainy will not stop crying, don't let his tears extinguish the moon!

It's usually most safe to pass over him.

Tickle him to cheer him up and make passing a little easier.

Rocket Cloud: Tap to Set Off

Rocket is an easily excited chap, he's just waiting to accelerate into the moon.

It's usually most safe to stay above or below him.

Tap him to safely set him off, when he is out of harms way.

Bomber Cloud: Tap to Explode

Bomber is a temperamental guy, he is likely to explode when he gets near the moon.

It's usually most safe to stay well away from him.

Tap the switch on his back to set him off early, before he gets close!

Thunder Cloud: Tap to Shock

Thunder is a devious trickster, he will strike the moon at any given chance.

It's usually most safe to pass above or out of range of his lightning.

It's always fun to tap him to give him an involuntary shock.
